XR550 Panel

- Select Area, All/Perimeter, or Home/Sleep/Away operation
- 32 individual reporting areas with common areas
- Up to 96 supervised door access points and/or keypads
- 32 character names available for user, zone, area, profiles and group names
- Up to four profiles per user
- Fully supervised network, cellular, and Wi-Fi communication
- Communications Diagnostics check network and cellular communication status from the keypad
- Eight communication paths between the panel and central station
- Flexible system arming features with Instant Arming option
- Lockdown operation from keypad or mobile app
- Up to 562 two-wire smoke detector or fire-initiating zones
- 10,000 user codes with 99 profiles and temporary codes
- 506 outputs
- 12,000 event buffer
- 1.5 Amps 12 VDC smoke and auxiliary output with OVC protection
- EASYconnect™ connection for Virtual Keypad™ when used with a network connection

XR550 Bank Features
- UL Bank, Safe and Vault
- Card plus pin
- User inactivity audit
- Two Man Rule
- Panic Button Test
- Early Morning Ambush

XR550E Encryption Features
- 128 or 256 Bit AES Encryption
- NIST Certified
- Meets ICPG 705

Onboard dialer
Onboard 10/100 network communication
Plug-in cellular communicators allow for Virtual Keypad™ and central station connection
Flash updatable — locally over cell or network
Adaptive Technology™ — cost-effective supervised cellular backup
Up to 500 1100 Series Wireless or Wired LX Bus zones
Up to 99 schedules for areas, doors, outputs, Z-Wave® favorites, and profiles
FLEXIBLE COMMUNICATION
The XR550 has transitioned from dialer-focused communications to a true network, cellular and Wi-Fi communications approach by providing stronger, multi-layered panel communications that ensure a constant link between the panel and central station. The unique DMP Serial 3 format supports 32-character user, zone and area names to decrease the central station response time and limit dependence on automation literal tables for message interpretation. Contact ID dialer format is also supported.

NETWORK OR CELLULAR COMMUNICATION
Built-in 10/100 auto-sensing Ethernet connection enhances both standard and encrypted line security options. Both UDP and TCP are supported. The network option can be used as the primary or backup path to the digital dialer or cellular option.

The 263 Series Cellular Communicators can be used as the primary path, providing installation flexibility where no landlines are available. They can be used as a stand-alone communicator without the need for a backup. When used as the backup path, the 263 Series communicators provides the security of a communication link that continues to function, even when landlines are cut or compromised. This interface works over a variety of carriers in the USA and Canada.

ADAPTIVE TECHNOLOGY™
If a current primary communication path becomes unavailable, Adaptive Technology directs the panel to make a seamless transition from one communication path to another, ensuring that no check-in or supervision messages are missed. This allows a system to be fully supervised when the primary communication path is unavailable, while minimizing expensive cell traffic when all paths are good. The panel is constantly checking the failed path to enable the panel to revert back to the primary path when communication is restored.

EASYconnect TECHNOLOGY
EASYconnect™ enables the control panel to establish an outbound connection to SecureCom Wireless™ over the network. This allows for an effortless installation of network panels, without any customer router programming, providing extremely quick app connection times.

ZONE AUDIT DAYS
This is a valuable auditing tool to determine whether a zone or device has not been tripped within a certain number of days. Whether the system is armed or disarmed, up to 365 days can elapse without the zone being tripped. Each time the zone is tripped, the counter restarts. After the countdown expires, a fault message is sent and the timer begins the countdown again as per the programmed days.

USER INACTIVITY
The User Inactivity audit provides notification of user codes or credentials not used over a programmable period of time; for example, employees or service providers who haven’t used their PIN code or access credentials during a defined period of time. This notification promotes the purging of user and access rights as a result of employee termination or service provider changes. This option is found in System Options Programming.

EIGHT COMMUNICATION PATHS
Create, configure, and manage up to eight communication paths between the panel and central station. Each path has its own panel communication programming parameters and can be identified as either primary or backup. This enables installers to configure a reliable communication link, offering greater confidence that the panel will always be connected to the central station.

COMMUNICATION FUNCTION DIAGNOSTICS
The enhanced diagnostic menu enables technicians to check network and cellular communication status and cell signal strength from the keypad.

MOBILE PLATFORMS
DMP mobile platforms provide you with the tools you need to build strong connections with your customers.

- MyAccess enables end users to monitor and manage their systems remotely from any mobile phone using simple SMS texting.
- The Virtual Keypad app puts a keypad on the user’s Apple iPhone®, iPad™, or Android compatible devices.

ACCESS CONTROL BURGLARY INTEGRATION
The XR550 is an integrated burglary, fire and access control system that can be configured for users to gain access and disarm the area using a single card read.

FALSE ALARM FEATURES
Providing end users with a way to reduce false alarms, both Cancel/Verify™ and the False Alarm Question prompt end users to validate whether an alarm has occurred after entering their code. In a Home/Sleep/Away or All/Perimeter system, the user can either press Cancel/Verify or Yes/No to confirm alarm status and send to the central station.

AREAS
Program up to 32 areas with a variety of options, including independent arming. Each area has a unique name and may have its own account number. Common areas automatically arm when the last independent area is armed; likewise, they disarm when the first independent area is disarmed. This is ideal for lobbies or areas where users need common access to specific areas only.

DMP WIRELESS
DMP 1100 Series wireless communication employs 900MHz frequency-hopping spread-spectrum to ensure clear and accurate signal transmissions without interference in practically any environment. Receivers are alerted of transmitters that go missing with two-way communication. Each wireless transmitter communicates with the receiver using supervision messages.
WIRELESS ONE BUTTON KEYFOB WITH PROX

The 1144-D is a portable panic button fob, programmable to function in multiple locations, with alerts for lost fobs, late to test, and lower battery power.

LOCKDOWN

For emergency situations, a lockdown command can be issued from the keypad menu or via remote command to lock all doors designated as public.

TEMPORARY CODES

Temporary codes are user codes that can be entered with a finite date and specific time to expire.

ZONE EXPANSION

The XR550 provides up to 574 zones, programmable for burglary, fire, and access applications.

- 10 Onboard Zones
- 16 Keypads = 64 Zones
- 5 Built-in LX Bus (100 zones per LX)

ONE-MAN WALK TEST

A special code is also available for installers to test the system. The One-Man Walk Test allows a single technician to check the panel response to burglary, fire, panic, and supervisory zones.

OUTPUTS

The XR550 provides up to 506 outputs that can be activated by zone or system events, by schedule, through the User Menu or when a card is presented. Output Groups allow multiple outputs to activate with a single event and/or can be assigned to a particular user profile.

FLEXIBILITY IN SCHEDULES

Enhanced scheduling for areas, doors, outputs, and holiday schedules offer flexibility for your customers. Ninety nine programmable schedules are available and can be assigned to an area, door, or output. The same schedule may be assigned to more than one area, door, or output, making them reusable. A List key facilitates browsing through the list of stored names on the keypad.

- Up to eight schedules per profile
- Up to eight schedules per door
- Up to eight schedules per area
- Up to eight schedules per output
- Up to 40 holiday dates

ENCRYPTION

The XR550 provides encrypted data transmission and is ideal for secure environments where encrypted data is required. Using 128 or 256 bit AES (Advanced Encryption Standard) ensures secure data transmission by using a unique alphanumeric passphrase.

REAL-TIME STATUS ENHANCES THIRD-PARTY INTEGRATION

Alarm systems are increasingly being integrated with environmental control and home automation systems. With real-time status information from zones, doors, and other outputs, XR550 Series panels are readily integrated with these third-party control and automation systems. See DMP:com/Integration_Partners.

KEYPAD SHORTCUT KEYS

Time-saving shortcut keys provide easy one-button access to system control for frequently used functions like system arming. The shortcut keys enable users to arm, monitor zones, test, or reset the system and perform a variety of other functions faster and easier. Shortcut keys included are: All, Reset, Home, Chime, Perim, and Sleep.

Z-WAVE SUPPORT

Add up to 140 Z-Wave devices with the 738Zplus module for mobile control of lights, locks, and thermostats. Up to 20 favorites allow users to program multiple devices to respond to a single command or panel events like arming and disarming. Z-Wave devices can be controlled with the 7800 Touchscreen Keypad or MyAccess and Virtual Keypad.

96 ACCESS CONTROL DOORS

Any access control reader with a Wiegand output can be connected to the XR550 Series panel.

The XR550 system can restrict access by schedule, arming level, or other criteria. The specific reason for access denial can be displayed on the keypad, stored in events, sent to the central station, and DMP Advanced Reporting. Anti-passback feature is also available.

THINLINE™ KEYPADS

The stylish and sleek 7000 Series Thinline™ LCD Keypads provide three two-button panic keys, AC power and Armed LEDs, 32-character display, backlit logo and keyboard plus an internal sounder. The 7063 keypad also includes a built-in proximity reader for codeless arming and disarming.

VALUABLE VISUAL ALARM INDICATOR

In a normal state, both the keypad and logo backlighting remain blue on Aqualite keypads or green on Thinline keypads. However, during an alarm state, the keypad and logo turn red. The change in color allows individuals on-site to instantly recognize an alarm condition.

7800/9800 SERIES GRAPHIC TOUCHSCREEN KEYPAD

Provides touchscreen control for all keypad functions. It has a slim profile in stylish gloss black or white finish with a 5-inch, full-color display.

COMMERCIAL FIRE

The DMP XR550 is also approved for commercial fire applications. Integrate intrusion, access, and fire into a single application or use the XR550FC as a stand-alone commercial fire alarm control panel. See LT-1317 for more information.
## COMPATIBILITY REFERENCE SHEET

### Keypads
- 63OF  LCD Remote Fire Command
- 7000  Series Thinline Keypads
- 7000A  Series Aquatide Keypads
- 7800  Graphic Touchscreen Keypads
- 9010  Wireless Keypad
- 9015  Wireless Keypad w/ Prox Reader
- 9800  Wireless Touchscreen Keypads

### Expansion Modules
- 708  Bus Extender
- 710  Bus Splitter/Repeater
- 711  Single Zone Expansion
- 712-8  8-zone Expansion
- 714-16  16-zone Class B Expansion
- 714-8  8-zone Class B Expansion
- 714-16  16-zone Class B Expansion
- 715  4-zone 2-wire Smoke Expansion
- 715-8  8-zone 2-wire Smoke Expansion
- 715  4-zone 2-wire Smoke Expansion
- 712-8  8-zone Expansion
- 711  Single Zone Expansion

### detectors
- 716  Output Expansion, 4 Form C
- 715-16  16-zone 2-wire Smoke Expansion
- 715-8  8-zone 2-wire Smoke Expansion
- 715  4-zone 2-wire Smoke Expansion
- 714-16  16-zone Class B Expansion
- 714-8  8-zone Class B Expansion
- 714  4-zone Class B Expansion

### Expansion Modules
- 9800 Wireless Touchscreen Keypads
- 9063  Wireless Keypad w/ Prox Reader
- 9060  Wireless Keypad
- 7800 Graphic Touchscreen Keypads
- 7000A Series Aqualite Keypads
- 7000 Series Thinline Keypads

### Intrusion Devices
- Virtually any other standard intrusion detectors

### Access Control
- 734  Wiegand Interface Module
- 734N  Network Wiegand Interface Module
- 734N-WIFI  Wi-Fi Wiegand Interface Module
- OP-08CB  REX Motion Detector
- PB-2  Request-to-Exit Button
- Proximity Readers and Credentials
- DMP ProxPatch

### Central Station Receivers
- SCS-IR  Security Control Receiver
- SCS-305  Single-Line DMP Serial 5 Receiver compatible with receivers that accept Standard CID, DD, or DMP Serial 5 messaging
- SCS-VR  (Virtual Receiver)
- Software-only solution that runs on a server for network IP and cellular communications

### DMP Wireless
- 1100X  Receiver
- 1100XH  High-Power Receiver
- 1100R  Repeater
- 1101  Universal Transmitter, Internal and External Contacts
- 1102  Universal Transmitter, External Contact
- 1103  Universal Transmitter, Internal and External Contact
- 1104  Micro Window Transmitter
- 1105  Four-zone Expander
- 1106  Wireless Temperature Sensor and Flood Detector
- 1116  Relay Output
- 1117  LED Annunciator
- 1118  Remote Indicator Light
- 1119  Door Sounder
- 1121  Pet Immune PIR Motion Detector
- 1122  Wireless PIR
- 1126R  360 Ceiling Mount PIR
- 1127C  Wall Mount Curtain PIR
- 1127W  Wall Mount Wide Angle PIR
- 1129  Glassbreak Detector
- 1131  Recessed Contact
- 1135  Siren, 100 dB
- 1136  Wireless Remote Chime
- 1137  LED Emergency Light
- 1139  Bill Trap
- 1141  Wall Button
- 1142  Two-Button Hold-up Transmitter
- 1142B  Two-Button Belt Clip
- 1144-4  Four-Button Key Fob
- 1144-2P  Two-Button Key Fob
- 1144-1P  One-Button Key Fob
- 1144-D  Dual-Button Key Fob
- 1148  Personal Pendant
- 1154  Wireless Four-Zone Input Module
- 1158  Wireless 8-Zone Input Module
- 1164  Smoke Detector with Synchronized Sounder
- 1164NS-W  Wireless Smoke Detector with No Sounder
- 1166  Wireless Smoke Ring
- 1183-115F  Heat Detector (Fixed)
- 1183-135R  Heat Detector (Rate of Rise)
- 1184  Carbon Monoxide Detector

### Accessories
- 270  Network Transient Suppressor
- 277  Trouble Annunciator
- 300  Four-wire Harness
- 301  Silence/Reset Push-Button
- 305  Plug-out Output Relay
- 306  Tamper Harness
- 307-S  Screw-on Tamper Switch
- 3012  Clip-on Tamper Switch
- 335  Intrusion Siren
- 370  Lightning Suppressor
- 374  Surge Voltage Suppressor
- 431  Output Harness
- 738L  Z-Wave Interface Module
- 861  Power Distribution Module
- 300-9800-4  Four-wire Replacement Harness

### Intrusion Panels
- 277  Trouble Annunciator
- 300  Four-wire Harness
- 301  Silence/Reset Push-Button
- 305  Plug-out Output Relay
- 306  Tamper Harness
- 307-S  Screw-on Tamper Switch
- 3012  Clip-on Tamper Switch
- 335  Intrusion Siren
- 370  Lightning Suppressor
- 374  Surge Voltage Suppressor
- 431  Output Harness
- 738L  Z-Wave Interface Module
- 861  Power Distribution Module
- 300-9800-4  Four-wire Replacement Harness

### Dealer Management
- Dealer Admin
- Remote Link Programming Software

### End User Management
- Virtual Keypad
- MyAccess
- VirtualKeypad.com™ System Link End-User Management Software
- Entré Access Control Software

### System Specifications
- **Primary Power (included):**
  - 16.5 VAC 50 VA transformer
- **Secondary Power:**
  - 12 VDC Battery
  - Models: 364, 365, 366, 368 or 369
- **Output Rating:**
  - Bell 1.5 Amps at 12 VDC
  - Smoke and Auxiliary 1.5 Amps at 12 VDC
- **Current Draw:** 180mA

### Enclosures
- Material: Cold-rolled steel
- Model 350 (Gray or Red) 17.5" W × 13.5" H × 3.5" D
- Model 350A (Gray) 17.5" W × 13.5" H × 3.75" D
- Model 352X (Gray) 14.5" W × 32" H × 34" D
- Model 341 (Gray) 12.75" W × 6.55" H × 3.15" D

### Listings and approvals
- New York FDNY
- FCC Part 68
- FCC Part 15
- Underwriters Laboratories (UL) Listed
- UL Bank, Safe, and Vault
- UL Commercial Fire
- UL Standard Line Security
- UL Encrypted Line Security
- NIST Validated Certificate #2350 and #2595
- Underwriters Laboratories Canada (ULC) Listed
- California State Fire Marshal (CSFM)
